## WORK EXPERIENCE

### ● Courier

NEW YORK PIZZA, HOUTEN

2020/03 - 2021/11

After some time, a friend of mine suggested that I apply for a job as a courier at New York Pizza. At the time, I enjoyed riding my scooter, so it was the ideal opportunity to indulge in my hobby while earning money for it. We always worked as a team, and we each had our own part of the job. Through this, I learned more about closing a store, taking orders, and how to make pizzas. I stopped because I realized I wanted to engage with the customers more than just deliver pizza to them.

### ● Barista

STARBUCKS, UTRECHT

2021/11 - Present

This is my current position, and I enjoy being a barista with such a fantastic team. I was able to engage with customers as I wanted to, and I also made many friends among my coworkers and regular customers. I gained a lot of knowledge about the job of creating coffee and latte art. I developed a keen interest in what the supervisors were doing and kept inquiring more about it until they asked me to take on the role of supervisor, which I declined to accept because I still had classes to attend. Nevertheless, I did decide to work as a trainer to explain the job's requirements to new hires.

## EDUCATION/INTERNSHIPS

### ● MBO Utrecht – Application and media developer

2019/09 - 2022/06

I FINISHED MY MBO 4 AS AN APPLICATION AND MEDIA DEVELOPER, AND DURING THAT TIME, I LEARNED EVERYTHING THERE IS TO KNOW ABOUT CODING, FROM USING HTML, CSS, AND GITHUB TO USING SCSS, JAVASCRIPT, NODE, TYPESCRIPT APIS, AND OBJECT-ORIENTED PROGRAMMING. IN THE FIRST YEAR, WHEN WE HAD THE CHOICE BETWEEN WEB DEVELOPMENT AND GAME DEVELOPMENT, I OPTED FOR THE FORMER BECAUSE I REALLY ENJOYED BUILDING WEBSITES AND DEVELOPING DIFFERENT APPLICATIONS. IN MY LAST YEAR OF SCHOOL, I ALSO HAD TO COMPLETE AN INTERNSHIP, WHICH I DID AT ING. I GAINED A LOT OF KNOWLEDGE ABOUT WORKING IN AN OFFICE AND THE DISTINCTIONS BETWEEN TEAMWORK ON A PROJECT AT SCHOOL AND DOING SO THERE.

### ● Hogeschool van Amsterdam – Front end Developer

2022/09 - 2023/03

I STARTED AN HBO BECAUSE I WANTED TO LEARN MORE ABOUT THE FRONT END OF WEB DEVELOPMENT, BUT I SOON REALIZED THAT I ALREADY KNEW A LOT OF THE MATERIAL BECAUSE I HAD COMPLETED MY MBO. I DID, HOWEVER, LEARN THAT AS LONG AS YOU HAD EVIDENCE OF DOING SO IN THE FORM OF PHOTOS AND VIDEOS, IT DIDN'T REALLY MATTER WHAT YOU DID. THAT CAUSED ME TO LOSE A LOT OF MOTIVATION, AND I ALSO MADE THE DECISION TO QUIT AND BEGIN WORKING AS A JUNIOR FRONT-END DEVELOPER. I'M STILL OPEN TO DOING AN HBO OR LEARNING A LOT ABOUT CODING AND WEB DEVELOPMENT.

### ● Internship – ING

2021/02 - 2022/05

I HAD A GREAT TIME AT ING AND LEARNED A LOT ABOUT APIS, INCLUDING HOW THEY OPERATE, WHAT THEY CAN DO, AND THEIR UTILITY. I HAD TO CREATE AN APPLICATION FOR THEM, STARTING WITH A DESIGN AND MOVING FORWARD FROM THERE. MY FIRST TEAM OUTING WAS WHEN WE WENT ON A TRIP DURING MY INTERNSHIP; IT WAS GREAT FUN AND HELPED ME GET TO KNOW THE TEAM A LITTLE BETTER. THERE WAS SOME CONFIDENTIAL INFORMATION THAT I HAD TO TAKE AN OATH FOR.

## HARD SKILLS

HTML

CSS/SASS

JavaScript

## SOFT SKILLS

Fast learner

Flexibel

Team player

## LANGUAGES

Dutch

English

## HOBBIES

Programming
